- Quick and adaptive learner
- Clear and effective communicator
- Working as part of a team
- Ability to work well under pressure
- Python
- HTML5
- CSS3
- Javascript
- React
- Git/Github
- Node.js
- NPM

INTERESTS

I am an avid chess player. I have won both individual and team prizes. I have served as a President of QUB chess club and board member on the Ulster Chess Union. Chess has helped me improved my problem solving skills, patience and concentration. I also have a keen interest in learning Spanish. I studied Spanish at GCSE and attended an extracurricular course at QUB to improve this skill further. I also use the Duolingo to help develop my vocabulary.

REFERENCES

References To be provided upon request.

Experience working in various technical and detail focused roles. Passionate about technology and recently become enamoured with software development. I offer a unique perspective, having studied creative problem solving through philosophy and chess. Determined to work hard to learn and develop my skills in programming, through both work and self-study.

EXPERIENCE

September 2019 to Current

Developer

- First class mark for Masters Python module.
